## HEALTH HAZARD INFORMATION

### Acute Effects

**Ingestion:** Irritating. May cause coughing, headache, dullness, abdominal spasm and diarrhoea.

**Eye:** Liquid and high vapour concentration are irritating and may cause watering of the eyes.

**Inhalation:** High vapour concentration can be irritating to eyes nose and throat.

**Skin Reactions:** No adverse reactions, redness, discoloration or allergic reactions known or reported for exposure during or after the 12 -72 hour tattoo period.

**Advice to doctor:** Treat Symptomatically

## FIRST AID PROCEDURES

**Ingestion:** Rinse mouth out with water ensuring that mouth wash is not swallowed. Give about 250ml (2 glasses) of water to drink. Do not attempt to induce vomiting.

**Eye:** Hold eyelids open and rinse the eye continuously with a gentle stream of clean running water for at least 15 minutes.

**Inhalation:** Remove to fresh air. If breathing is laboured, hold in a half upright position (this assists respiration). Seek medical attention for all but most minor cases of over-exposure.

**Skin & Allergic Reactions:** Remove the tattoo with 70% Isopropyl alcohol cleaning pad or cotton balls. For skin dryness apply non-allergenic moisturizing cream.

**Advice to Doctor:** Treat symptomatically.

## PRECAUTIONS FOR USE

**Engineering Controls:** Ventilation requirements depend on the quantity of product in use and the method of application. Ventilation should be sufficient to maintain vapour levels below the appropriate exposure Standard. Use only in well ventilated areas unless forced air ventilation is employed, this is due to fire hazard as well as risks from inhalation. Local exhaust ventilation may be required.

**Personal Protection:** Requirements are dependent on working conditions, quantity of product in use and method of application. In confined or poorly ventilated areas use a face mask.

**Flammability:** Avoid all sources of ignition such as open flames, sparks, hot surfaces or burning cigarettes. The product may react with strong oxidising agents such as liquid or powdered chlorine.

**Body Paint Use:** Do not spray directly on eyes, nose, mouth, lips or ears. Not recommended for face painting.

## SAFE HANDLING PROCEDURES

**Storage:** Store in a flammable liquids area: designated no smoking, away from all sources of ignition, out of direct sunlight in a cool well ventilated area. Protect containers against physical damage.

### **Spills and Disposals**

**Spills:** Dam the spill. Cover with an absorbent such as earth, sand or a commercial oil absorber. Sweep up and collect in sealable containers. Dispose to approved land fill.

**Disposal:** Dispose to controlled waste management.

**Fire/Explosion:** Containers may explode if heated. If possible remove containers from vicinity of fire.

Otherwise keep containers as cool as possible by spraying with water, from a protected position.

Water is not effective for fire fighting. Extinguish using foam, powder (bicarbonate or ammonium phosphate based) or carbon dioxide.
